EXPERIENCE

Northwest Media Collective, Vancouver, WA *Internship*

June 2017 - July 2017

Working daily on client websites with a focus on PHP and WordPress. Gaining experience with FTP, CPanel and PhotoShop. Creating React JS applications to further explore the Node JS, Express and MongoDB stack.

Columbia Forge & Machine Works, Portland, OR *Saw Operator*

August 2015 - November 2016

Produced steel parts for industrial marine, rail car, and power transmission utilities. Worked as general saw operator, including the forging and machining departments.

Home Depot, Vancouver, WA *Sales Associate*

August 2013 - November 2014

Maintained tool rental department including tool maintenance and sales. Worked as general associate on the sales floor.

Portland Music Company, Portland, OR *Assistant Manager*

April 2002 - October 2011

As assistant manager, my daily objective was a customer's experience in decisive problem solving. Promoted from sales associate to assistant manager within three months of hiring. Moved store location into a larger building increasing business and profits by 30 percent.

EDUCATION

Epicodus, Portland, OR *PHP/Drupal*

January 2017 - June 2017

Attended the PHP/Drupal/Javascript track to further my skills in the languages and frameworks/libraries/CMS built upon them. Studied sequel and object-oriented databases in relation to applications. Gained extensive practice with documentation, protocols, research tools and pair-programming.

PROJECTS

Shoe Store Administrative tool for a shoe store. Featuring PHP, CRUD, MySQL multi-relational database, Twig templating and Silex micro framework.

Github Battle Game that compares Github repo statistics and displays current popular repos for various languages. Built in React library and ES6.

Club Manager Angular 2 project that allows users to view a list of Timbers soccer players and an admin section that offers tools to add/update/delete players from the roster.

MY SKILLS

JavaScript / jQuery

Node.js

Angular 2 / Ember

React.js

PHP / Drupal / WordPress

Ruby on Rails

MySQL / Firebase

HTML / CSS

Git
